

3x5

by Hooker Leo

This is a recipe for you to make a cozy for that item you keep misplacing, but like to have handy at any given time. The yarn I used is of unknown fiber content. But this recipe should be easy to adjust to any weight yarn.

Cozy

Chain 36 (or number that will go around your camera, phone, eyeglasses, television remote, et cetera) + 1. Being careful not to twist the foundation chain, slip stitch into back loop of first stitch (chain) [here, and till pattern end].

Round 1: Chain 1 and single crochet in back loop of second stitch (chain) [here, and till pattern end] and every stitch around, ending row with slip stitch into back loop top of first stitch (single crochet). [36 single crochet].

Repeat previous instruction to desired height of your camera, phone, eyeglasses, television remote, et cetera).

Seaming

Fold your tube in half, 18 stitches on each side. Slip stitch through the tops of all stitches in front and back, simultaneously.

Crochet i-Cord Strap

Chain 4. Single crochet in second chain from hook, back to beginning. Instead of turning,

Proviso

While I condone your profit from making my pattern, I do ask that you do not copy my pattern when it is available for free. Help a human out and share the source: A Hooker's World.

continue in spiral motion. Single crochet to desired length.

Notes

Designed to fit Sony Cybershot 6.0 Mega Pixels; Dimensions: Depth: 0.9 in; Height: 2.32 in; Width: 3.54 in.

I did not sew in my loose ends until the very end, which made attaching the straps a little challenging. I'm just sayin'!

If your yarn has a stretchy element, make sure you are working with a relaxed tension and take that into account when crocheting your strap, by draping around your neck and testing the stretch by the object in the cozy.
